INSTRUCTIONS FOR MEASURING AND ORDERING

Measurements Required for Ladies' and Misses' Clothing

A—BUST MEASURE. Pass the tape around body over the fullest part of bust in front, and over shoulder blades at the back.

B—WAIST MEASURE. Around waist at the smallest part.

D—HIP MEASURE. Take measurement around hips over skirt about 7 inches below the waist line.

E—LENGTH OF SKIRT. Measure from natural waist line in front to length desired.

Suits and Dresses.—Give all of the above measures only. **Skirts.**—Give waist, hip, and front length measurement. **Misses' Garments.**—In addition to giving the above measurements, it is well to also give the age and weight, so that we may be better able to judge whether the figure is plump, medium or slight.

Children's Garments.—Give age and weight; say whether large or small for age.

Stout Figures.—See schedule of sizes given with descriptions. Be sure your tape measure is correct.

Men's and Boys' Clothing Measurements OVERCOAT OR RAINCOAT

Take your chest measure in inches exactly as you would for the coat of a suit as described below and illustrated at No. 1 in the figure. We make all necessary allowances and guarantee a perfect fit. Also give your weight, height and age.

Note—Working Coats, duck leather, sheepskin, etc., are cut full, but a garment of this kind should not fit as closely as your dress coat. Sometimes the lining is of such a nature as to take up more room than the pattern allows. This is especially true of sheepskin lined garments. So, in ordering these coats, you would require at least two inches larger than in a regular dress coat. If you wish to fit over an under coat, sweater, mackinaw or heavy under garments of this kind, you will require even larger, as you must have room in a working coat for comfort. So be sure to order large enough.

FOR A SUIT

We require the following measurements, taken when standing in a natural position: Draw the tape moderately tight. Get the natural measurements as accurately as possible. Do not inflate the chest when taking measurements. Make no allowances whatever, but send us natural measurements, taken as follows: Having no tape measure, send ordinary cords and mark separately—chest—waist—inseam.

1. **Chest.**—Take your chest measure in inches close up under your arms and over your vest. Take off your coat to secure this measurement. Shown at No. 1 in the figure. **2. Waist.**—Take your waist measure in inches over the trousers as shown at No. 2 in the figure. Pull up your vest to secure this measurement. **3. Inseam.**—Measure the length of the inseam of your trousers, from close up in the crotch to the exact length you prefer. Shown from No. 3 to heel of shoe in the figure.

Height	Weight	Age
--------	--------	-----

Young Men's Suit Sizes

Young Men's Suits are made in the regular sizes as follows:—

Chest—28—32—34—35 inches.
Waist—28—29—30—30-31—31-32 inches.
Inseam—29—30—31—32—33 inches.

For example: If chest measure is 33 inches, choice of 29 or 30 inch waist measure can be had in regular sizes. With 33 inch chest measure, 29 to 33 inch inseam measure can be had.

BOYS' CLOTHING.—For boys' overcoats and two or three-piece knee pants suits and knee pants up to 16 years old give this information:

Terms and How to Order

We require cash with orders. Use our regular Order-blank, if you have one; if not, any piece of blank paper will do. Always keep a supply of our Order-blanks on hand; it is more convenient to make your order out on one of them than in any other way. If you are out of them at any time, write us on a postal card, and we will send you a supply.

Use a separate piece of paper when requesting information not connected with your order.

Sign your name plainly and in full, using Mrs., Miss or Mr.

Give exact address, stating Post Office, Shipping Point and Province; also if you have a local address such as rural route, street number, or post office box, be sure to give it.

If members of the same household will send all their orders in the name of the head of the family, it will make it much easier for us to handle your business, and also be much appreciated.

When desiring to purchase goods to match some you already have, be sure to send a sample with your order.

How to Send Money

You can send money by Post Office Money Order, Postal Note, Express Money Order or Bank Draft, and we will guarantee the safe arrival of money sent in any of these ways.

If remitting by personal check, be sure to include sufficient to cover exchange.

Do not send currency in open mail, as it is contrary to Post Office regulations and we cannot guarantee safe delivery.

WE PAY ALL SHIPPING CHARGES to your nearest Post Office or Station, so do not send any extra amount—only sufficient to pay for your purchase.

C.O.D. Shipments

We discourage shipping goods C. O. D. Send remittance in full to cover your order, it is much less trouble to you and saves both time and needless expense.

When you send in your money to us you are fully protected, as our reliability is unquestionable, and we will promptly, upon request, exchange for other merchandise or refund your money and transportation charges.

Use the Index

You will find the Index on the last page in the book.

Sizes and Colors

Where goods are sold in different sizes, be sure to tell us the exact size wanted. If you do not know your size, give us the measurements in inches. Directions for taking measurements will be found on page 206.

We find the tendency to order shoes too small in many cases. It is better to order them a trifle large; a half size larger than exact size adds much to your comfort.

Do not fail to state the color wanted when articles come in different colors or shades.

Safe Delivery of Goods

We guarantee safe delivery of the goods to you. If a mail package reaches you in a damaged condition or shows evidence of having been tampered with, point this out to the Postmaster. If the shipment was sent by express, get the agent to put a notation of the damage on your expense bill, then write us at once giving full particulars, enclosing the noted expense bill with your letter, and we will make prompt adjustment.

BEFORE SEALING YOUR ENVELOPE

Did you give style, article number, quantity and price?
Did you state size wanted?
Did you state color wanted?
Did you enclose necessary amount of money?

Did you sign your name plainly?
Did you give your Post Office address?
Did you give shipping point if different from your Post Office?

ALWAYS ORDER IN THE NAME OF THE HEAD OF THE FAMILY

Shipping in Plain Packages

If you want your goods shipped in plain, unmarked packages, we will do so, if you request it when sending in the order.

Non-arrival of Goods

Always allow a reasonable length of time before writing us if goods do not reach you as soon as you think they should. Should you write, give full particulars, including a copy of the order, date of mailing, amount remitted, and in what form. If money order, give number and Post Office where it was obtained. If registered mail, give registration number and Post Office where registered. If express order, give date and express office. If bank draft give name of branch bank where issued and date.

When Returning Goods

WRITE YOUR NAME AND ADDRESS ON THE PACKAGE, SO THAT WE CAN IDENTIFY IT WHEN WE RECEIVE IT. THIS IS MOST IMPORTANT.

If for any reason you wish to return goods you are at full liberty to do so, as we do not want you to keep any purchase from us that is not entirely satisfactory. If the package weighs less than eleven pounds return it by mail, if more than eleven pounds, by express. In all cases where you return merchandise please write us a letter giving reason for returning and full particulars, **ALSO ENCLOSE ALL BILLS** and let us know if there is some other merchandise we can send you in place of that returned.

When returning goods by mail be sure to write your name and address plainly on cover of package so that in case of loss we can trace the package, also that we can identify it on arrival. Be sure to put sufficient postage on package (which we will refund), but do not enclose written instructions, or seal the parcel, as this is contrary to the postal regulations. Send your instructions in a sealed envelope separately.

When returning goods by express, write your name and address plainly on the package and enclose in the package your letter of instruction and all bills. This will greatly assist us in making a prompt adjustment.

Do not enclose money in any package, as we will not be responsible for its safe arrival.

We always refund any money you may pay for shipping charges on goods returned to us.

When Changing Your Address

Be sure to notify us at once when you change your address permanently so that our letters and printed matter may reach you promptly, or if sending a letter or order from a different Post Office than your own, state so, also give your old address.

Come in and See Us

Our out-of-town customers who find it convenient to come to our building and place their order, have the privilege of either taking their purchases with them or having the order shipped.
